

PREMIUM MOTORIZED OUTDOOR LIVING

Open the roof. Transform your outdoors.

Light, shade and fresh air.
Designed around the way
you live outdoors.

MOTORIZED RETRACTABLE

Louvered pergola.

A bioclimatic roof with motorized louvers that tilt for shade and retract to reveal the sky.

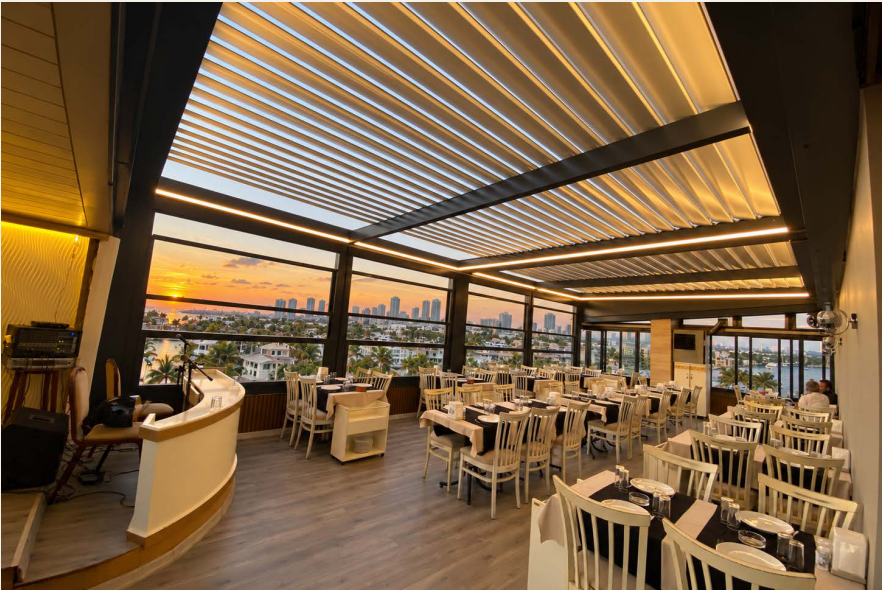

01 Shape the sunlight.

Tilt the aluminum louvers to balance sunlight, shade and natural airflow.

02 Reveal the sky.

Retract the louvers to enjoy more daylight, fresh air and an open view above.

25+ YEARS OF EXPERIENCE

INTERNAL DETAIL

FINISHED POST

01 / Concealed drainage

The downpipe is concealed within the finished aluminum post. Internal detail and finished exterior shown above.

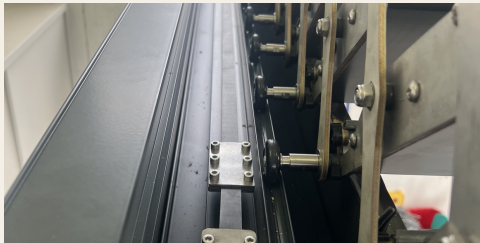

CLOSED

OPEN

02 / Retract. Reveal the sky.

The louvers retract into a compact stack, opening the roof to daylight and fresh air.

03 / Precision roof mechanism

Precision components guide the roof's movement.

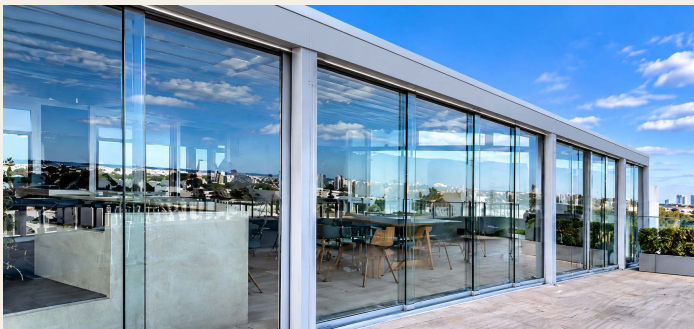

04 / Stay a little longer

Available perimeter LED lighting creates a warm, welcoming atmosphere.

05 / Your privacy, your shade

Optional motorized ZIP screens provide shade and privacy.

06 / Keep the view

Optional sliding glass enclosures preserve the view and help shelter your outdoor space.

Let's build your outdoor space.
